

## LONG-STANDING BRAND BBSI OPENS BRANCH IN LAS VEGAS

**June 2018** – (Las Vegas) – The business climate in red-hot Las Vegas has a new player that brings a long-standing history of making businesses stronger. BBSI, a leading provider of business management solutions with 101 Teams in 58 physical locations, is new to Las Vegas. Founded in 1951, BBSI partners with businesses of all sizes to develop a blueprint for success that includes important areas such as human resources, payroll and risk management, as well as business management coaching.

Respected business expert Jeff Kohl (pictured) heads the new branch. “Our team is already seeing great potential in Las Vegas,” says Kohl, who is the area manager of BBSI’s Las Vegas branch. “Before deciding to open a branch in Las Vegas, BBSI’s corporate team thoroughly tracked the business climate in the city and region and saw a great need for BBSI’s tools and expertise. With more than three decades in C-level business, I am excited to lead this new business in my hometown.”

A Grand Opening and Ribbon Cutting is planned for August 9 at the new branch in Summerlin at 3755 Breakthrough Way. “From Las Vegas to Lake Havasu, St. George to Primm and all points in-between, BBSI offers flexible solutions to help business owners better navigate pitfalls and build a stronger foundation for their business. These aren’t just patchwork fixes. They’re part of our comprehensive approach to solving pressing business concerns and aligning businesses for success,” adds Kohl.

Kohl’s broad expertise in business development & management, marketing, sales and operations is a boost to business owners. His impressive background includes leadership roles with the Disney Institute and Disney Cruise Lines; Princess Cruise Lines; Precor, Inc.; and Elizabeth Arden Red Door Spas.

“BBSI advocates for the business owner. We have been there and respect the risks business owners are taking. Owners are last to be paid, can’t quit, and last to leave. Our experience with over 5,500 clients informs our perspective, enabling BBSI to help owners not only see the bumps in the road, but to develop a business blueprint for success,” explains Kohl, who also gives more detail in this [video](#).

Here are a few ways BBSI partners with growing companies:

- Analyze current personnel policies & procedures and identify any gaps in compliance
- Identify more efficient ways to handle important details, including payroll, employee benefits, workers’ compensation coverage, workplace safety programs, compliance with federal & state employment laws, labor & workplace regulatory requirements and related administrative responsibilities.
